- Trees were removed and currently preparing for foundation
- Egress from OMPR - modifying 2 of existing egress windows. Temporary platform to aid access/shrubs to removed - clear path for safe egress.
- State requires 2 egresses based on room capacity
- No mold or mildew was found in the rooms that have been demolished - rooms are in good condition; no water damage was found
- Additional trailer to come to staging area. Fencing, as is, will be what can be expected for fall
- Looking ahead: demo complete. New roughing and new walls complete. Beginning of August: expect to be working on interior and putting things back together. Work will also take place on Saturdays.

- Security vestibule work to begin in two weeks and will be a two-week project.
 - Groundhog was relocated to Putnam
 - Time Capsule was found, but was filled with water. John Tremholm is storing any artifacts
 - **Arrival/Recess and Dismissal Update- Sharon Hill and Sharon De Lorenzo**
Anticipate having enough Teacher Aides for arrival on Sage and Putman.
Custodians will support arrival and help with traffic control.
 - **Traffic Plan Update**
 - Signage and cross walk will cause us to lose spots on Huntington. No Parking Zone on Huntington will be eliminated and will compensate for the loss - creating 3 additional spots
 - Changes on Sage Terrace so parking will happen on (1) side - left side of the street
 - May be able to eliminate 3-hour limit on Huntington
 - Josh Ringel and Sargeant Rosa recommend eliminating the mid-street crosswalk on Huntington for safety reasons. The Scarsdale PD receives calls about the impact of safety with regard to that crosswalk. Children are too close to the crosswalk. **Going forward crossing will be allowed at Sage and Huntington and Putnam and Huntington intersections.**
 - Provide information for teachers - where parking is allowed
 - **Open Items from Last Meeting - Stuart Matthey**
 - Village/Police/Park East - parking meeting - see above
